Passionate full-stack developer with a strong foundation in web development, IT operations, and emerging technologies. Originally from Medellín, Colombia, I've been coding since high school, gaining hands-on experience in SaaS, enterprise software, and blockchain. Since moving to NYC in 2022, I've focused on web development optimized for performance and customer gain.

Currently managing websites and social media content for different clients and growing as an agency, seeking impactful collaborations.

## Experience

### 2020 - Code Foundations

Developed a strong foundation in **HTML**, **CSS**, and **JavaScript** through Udemy and Platzi while finishing high school, focusing on responsive design and interactive web development.

### 2021 - 2023 - Beewo (Remote Internship)

Worked with **Ruby on Rails**, **React** and **Azure** to develop features for a business management **SaaS** platform, gaining hands-on experience in full-stack development while finishing high school.

### 2021 - 2024 - Control IT (Contractor)

Worked with **Control IT**, using **Microsoft PowerApps**, **PHP**, **Python**, and **SQL** to debug and develop new features for enterprise software, improving system performance and functionality.

### 2022 - 2023 - Blockchain & IT Operations

Researched **Solidity** and **blockchain** technology while transitioning to **NYC**, gaining experience in the service industry. Later, worked on network infrastructure, **CCTV systems**, and **WordPress**, providing **IT** operations support and **freelance** web design services.

### 2024 - Present - Freelance Development

Built a growing clientele by developing **Next.js**, **TypeScript**, and **Sanity CMS**-based full-stack applications with a strong focus on **SEO** and performance optimization. Actively managed websites and social media accounts for clients, expanding into a full-service digital agency.

### 2025 - Future - Life is Good

Looking to explore new technologies, business growth, and creative solutions to make a **bigger** impact. Focused on leading projects, building strong **partnerships**, and creating innovative digital experiences, always open to new opportunities and **connections**.

 TypeScript	 Javascript
 Next.js	 React.js
 Ruby On Rails	 Powerapps
